At 11:19 P. M. the following reply was received by the President from Governor Taft;

To President:

The Filipino people and the American residents in these islands are glad to present their respectful greetings and congratulations to the President of the United States conveyed over the cable with which American enterprise has girded the Pacific, thereby rendering greatly easier and more frequent communication between the countries. It will certainly lead to closer union and a better mutual understanding of each others aims and sympathies and of their common interest in the prosperity of the Philippines and the education and development of the Filipines. It is not inappropriate to incorporate in this, the first message across the Pacific from the Philippines to Americans, an earnest plea for the reduction of the tariff on Filipino products in accordance with the broad and liberal spirit which the American people desire to manifest toward the Philipinnes and of which you have been an earnest exponent.

MESSAGE AROUND WORLD.

President Roosevelt then sent the following message around the world westward to Clarence H. Mackay, who was with Mr. Roosevelt at Oyster Bay:

"Congratulations and succases to the Pacific cable, which the genius of your lamented father and your own enterprise made possible."
